Technologies

HTML, CSS, Javascript, jQuery, Angular, TypeScript, C#, .NET, Microsoft SQL Server

Education

University of Central Oklahoma
- Bachelor of Arts in English, 4.0 GPA

I'm a full stack developer with a passion for code concision and clarity. I've coded in Angular and .NET for the majority of my career, and I'm seeking new opportunities to refine these skills and learn new capabilities with the joint purpose of solving problems with technology.

PROFESSIONAL EXPERIENCE

Software Developer, Trisura — August 2024 - Present
- Collaborate with cross-functional teams to design, develop, and implement specialty insurance software solutions
- Write clean, efficient, and maintainable code using such C#, ASP.NET MVC, ASP.NET Web API, JavaScript, TypeScript, SQL, and Knockout.js
- Utilized Typescript to build and release a reusable UI table NPM library that accepts an array of a given data type to generate a table with minimal new code required for each table

Full Stack Developer, MY Consulting Group — June 2021 - June 2024
- Worked as part of a team of developers and project managers to design and code an information management system for the Oil and Gas Division of the Oklahoma Corporation Commission in Angular and .NET, utilizing C# and TypeScript
- Prepared regular demos to demonstrate progress to stakeholders and field questions
- Interfaced with team members and clients to achieve desired outcomes

Full Stack Developer, Hobby Lobby — October 2019 - May 2021
- Refactored a large ASP.NET MVC event scheduling application for code concision and clarity utilizing jQuery and C#
- Designed and coded an updated version of an incident reporting application in Angular and .NET
- Maintained existing applications with ASP.NET MVC, ASP.NET Web API, Angular, etc.

Facility Solution Administrator, University Hospitals Authority & Trust — July 2018 – September 2019
- Developed, maintained, monitored, and diagnosed problems within facilities modules & processes on the organization ServiceNow Instance
- Created, implemented, and maintained, workflows, UI scripts, facilities catalogs and knowledge bases
- Recommended, planned and implemented changes and enhancements
- Prepared custom reports and metrics using performance analytics

Warranty Administrator, Inventronics USA — August 2015 – June 2018
- Coordinated & tracked all North American warranty claims
- Guided product through the return and analysis process
- Assisted in analysis of root cause trends in warranty claims
